Dear dr Costella,

Your paper, together with mr McKellar,
was brought to my attention by my former
colleague J. Hilgevoord. I like the way you
treat the subject, and would be interested in
reading your complete thesis.

I am already retired for 12 years! But
still interested in fundamental problems of space
and time; although a little out of touch with
the physics community.

I would enjoy receiving a copy of your
thesis, and thank you in advance! Looking
forward to hearing from you,

Yours sincerely

[A. W. Koster]
